PROFESSIONAL SUMMARY

Strategy and growth professional with 5 years at KPMG, leading high-ambiguity, C-suite initiatives. Combines a lifelong passion for problem-solving with hypothesis-driven research to identify opportunities and deliver commercial impact. Experienced in building and deploying AI-enabled workflows, leading design thinking workshops, conducting research, and influencing senior leaders.

AI PROJECT SPOTLIGHT

Government Pulse Sector Scanning Dashboard - *Next.js, TypeScript, Prisma, Turso*

- Developed a web tool that assesses new developments and trends within the federal government sector to inform business professionals serving clients in the space on the direction
- Leveraged as a cornerstone research tool for an internal monthly newsletter to 100+ business professional, shortening build time from weeks to days

Interview Insights Assistant Agent - *Copilot*

- Created a Copilot agent to assist with bespoke qualitative research methodologies - allowed interviewers to interact live with the agent to gain access to best practices and assist in developing further interview insights to better inform client experiences
- Shared across a team of 70+ business professionals to aid in insights gathering throughout client interviews

F1 Qualifying Data Dashboard - *Next.js, React, TypeScript, CSS*

- Developed a web dashboard that refers to real Formula 1 qualifying data and allows for side by side driver comparisons and analysis to create a tool for fellow F1 enthusiasts to analyze real driver data and determine deltas across lap times

Digital Bookshelf - *React, TypeScript, Vite, CSS*

- Designed, built, and deployed a responsive virtual bookshelf UI that transforms raw Goodreads export data into a visual, browsable personal library in an effort to up skill AI-assisted product building

EXPERIENCE

KPMG - Senior Associate, Insights & Intelligence

(July 2026-Present)

Client & Markets | Washington, DC

- Joined as a founding member, navigating ambiguity and growth challenges to stand up an 80 person team that is AI-native and able to supplement teams across the firm with tactical data that improved client outcomes
- Built and scaled a new research function within this AI-native team to deliver improved insights and nuanced perspectives on client and internal challenges
- Piloted AI workflows to create new research and data streams across teams to better inform client experiences and maximize potential outcomes

KPMG — Senior Associate, Strategic Intelligence

(October 2024-July 2026)

KPMG — Associate, Innovation Consultant

(August 2022 - October 2024)

Ignition Growth & Strategy | Washington, DC

- Drove GenAI adoption from 15% to 98% across a 100+ person team as an Ignition AI champion - building an end-to-end methodology refresh (best practices, Copilot prompt libraries, workshops) and AI enabled research workflows that cut project timelines from months to weeks
- Delivered market research and strategic recommendations to senior leadership (including the incoming KPMG US CEO and Ignition Lead Partner) and teamed with the DC market leader to incorporate 90% of client-facing market sessions with data-driven insights and intelligence
- Built the KPMG Ignition DC market from the ground up as a core team member, supporting \$90M+ in second year winds while managing and scaling a 3-person Strategic Intelligence team to drive cross-market opportunity identification
- Synthesized quantitative and qualitative data into KPIs, dashboards, and strategic narratives, facilitating 20+ workshops using design thinking methods to drive stakeholder consensus

KPMG — Innovation Lab Intern

(June 2021-May 2022)

Ignition Growth & Strategy | Washington, DC

- Supported market research, competitive analysis, and design-thinking workshop creation across client engagements, developing foundational strategy and analytical skills
